Tavistock and Trojan Cast Bathroom Package	
Size of the bathroom	Price
170cm by 200cm (Average size)	£5,950
170cm by 220cm	£6,150
170cm by 250cm	£6,350
200cm by 250cm	£6,550

Product Image	Description
  	<p><b>Trojan cast incredibly strong reinforced bath</b></p> <p><b>Elite Solo Straight Bath</b></p> <p>Trojancast is a substantial reinforcement process for an acrylic bath. This reinforcement process results in each bath being incredibly strong and hard-wearing. This gives you the reminiscent assurance of an old cast iron bath but with the natural warmth and quality acrylic has.</p>

Finish : Gloss Grey

**Add £300**

# Electrical work

## Any electrical work is at extra cost

In accordance with present regulations, if any electrical work is carried out in your bathroom, the consumer unit circuit to the bathroom must have 30mA rcd protection. Your water and gas services must have a main bond (must be correctly earthed). If the house does not meet these regulations, work would need to be carried out to meet them prior to any other electric work being carried out. This will be confirmed before any work is carried out.

We do not add electrical work to the package price as each person chooses a different selection of electrical products. Electrical work will be charged separately by the electrician.

	<p>3 Led Ceiling down lights supplied and fitted led lights</p> <p>Add £150</p> <p>4 Led Ceiling down lights supplied and fitted led lights</p> <p>Add £200</p>

	<p>Core through the bathroom wall and fit an extractor fan.</p> <p>Add £150</p>

Bathroom ceiling center light

Add £70

Bathroom pull chord

Add £30

Remove power source to existing shower and remove isolation switch in the ceiling, to allow the ceiling to be plastered.

Add £30

## Terms and Conditions

All prices are subject to change without notice at any time. A price will be confirmed after a site inspection and subject to client's requirements and bathroom size.

## Diagram and Floor Plan

The diagram is for illustration purposes only. It is not to scale. It shows a floor plan and provides an idea of the bathroom layout. It is possible that the bathroom items may be fitted in slightly different positions which will be determined by the fabric of the building such as, waste and water pipes, soil pipe, floor joists, windows, doors and heating pipes. When fitting we will make a decision of the best location for items to be fitted that may not have been obvious at the time of creating the drawing.

## Thermostatic showers and heating systems

Thermostatic showers can only be fitted when the hot water is taken from a high pressure system such as a combination boiler. If your hot water is taken from a low pressure system such as an immersion tank, it will not be possible to fit a thermostatic shower; The alternative is the fitting of an electric shower (this is at an extra cost).

The basin mixer (sink tap) requires a high pressure system to operate correctly. It is possible to fit this tap to a low pressure system, though the hot water flow will be limited based on the hot water pressure from your system.

If you have an old heating system we strongly recommend that you invest in a new heating system before upgrading your bathroom.

## Boiler and Heating System

When tiling bathroom walls, we need to first remove any radiator within the bathroom. To enable this we need to drain the heating system (remove water from the radiator). On refitting your radiator or replacing it with a towel warmer, we will top up the heating system. On occasions after a drain down, heating systems will not work without a service. This must be carried out by a gas engineer. We cannot carry out this work or be liable for any costs incurred.

## We do not decorate

We do not undertake any decorating of the ceiling, door or architrave around the door.

If there is architrave around the door we will tile to it, however if the level of the tile is higher we will add a tile trim to the edge

## Stopcock and Gatevalve

At some point during the refit of your bathroom, we will need to turn off the water to the property using the stopcock. In some instances the stopcock fails as it has seized internally and will not allow the water to shut off, alternatively after turning the stopcock it may begin to leak. If this occurs we cannot be held responsible.

We will be able to carry out the work to replace the stopcock or gatevalve at the price of the material and labour charged at £20 per hour.

## Toilet

Every day 6pm till 7:30am the toilet will be usable. We will refit a toilet every evening before we leave.

The toilet will not be usable on certain days and may not be usable on later days thought the work.

The toilet may be on a bucket flush for some of the time.

## Reviews

Below are a small selection of reviews written by previous clients from our Facebook page, you can see more reviews on our web site or Facebook page here

[www.coventrybathrooms.co.uk/reviews](http://www.coventrybathrooms.co.uk/reviews)

Quality - Been done for a couple of months now and still as good as new. Always available on the phone and happily took a number of calls at unsociable hours. Came and measured up in person and helped with ideas, as I wasn't too keen on doing all the decision making and parts picking. A genuine 5/5. Can't think of anything bad about the experience, and I'm a picky person.

*Dave*

Absolutely brilliant. Richard was more than helpful in the design process. Great communication. Thrilled with the high quality of the finished bathroom. Sean was an absolute star throughout the refurb maintaining high standards at all times. Highly recommend them for quality, service and price. Look forward to them returning to do my ensuite

*Linda*

Having just had our bathroom totally transformed by Richard and Lee I would totally recommend Coventry Bathrooms to anyone in the Coventry area looking for a refurbished bathroom.

Therefore if you want a quality bathroom fitted for a very reasonable price with a fantastic finish, look no further than Coventry Bathrooms.

*Ashley*

A big thankyou to Richard & Lee, for converting our bathroom, which we could no longer use safely due to health issues, into our dream of a walkin shower room,& their aftersales backup is trouble free,as we had a problem that was rectified with the minimum of heartache".Its a kind of magic" comes to mind,

*Thanks again, Liz & Pete*

Great team, good communication and the work looks great, I recommend this company very highly!

*Mark and Jo*

The guys were fantastic. Always on time very tidy and brilliant attention to detail. We have just booked them to carry out another bathroom.

Absolutely recommend them.

*Stuart*

We are very pleased with our lovely new bathroom and would have no hesitation in recommending Richard, Wes and the team. Our rickety old house threw up a few challenges their way but nothing was too much trouble and the end result is just what we wanted.

*Jackie*

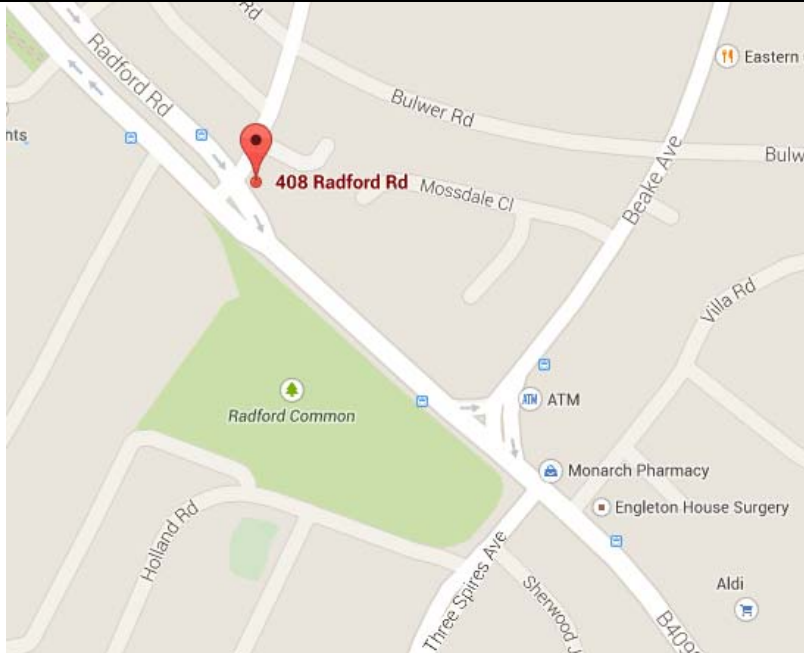

I would highly recommend Coventry Bathrooms. Many thanks to Richard, Sean and Nick for our new lovely bathroom.

Excellent service - Always on time and Very clean and Tidy workmanship

Once again thanks very much .

Dave & June
